Experience

PDI Technologies

Sr. UI/UX Designer: July 2020 - June 2026

- Designed UI and graphic assets for Convenience Retail and Fuel Rewards mobile apps.
- Implemented approved designs in proprietary front-end coding framework, CCMD.
- Designed the UI and UX for the newer Mobil Payment feature added to our apps, completely overhauling the older, outdated system with modern design standards and a more comprehensive UX flow.
- Designed the UX and user flow of the new Subscriptions feature, seamlessly tying it into the Mobile Payment feature.
- Managed the team's UX overhaul of the existing app template, assigning tasks and organizing meetings and milestones successfully reaching our deadline before development of the new app framework being developed by our engineers.

Phlux Apps LLC

UI/Branding Designer: Aug 2019 - May 2020

- Redesigned the business' branding and logo.
- Designed the UI for their main customer's software and website.

Darling Davis Designs *(no relation)*

Web Manager & Graphic Designer: Feb 2019 - July 2019

- Managed the business' social media and online store.
- Designed original t-shirts and signage for sale, as well as customers' ideas/requests.

Nexrage Studios Custom Software

Creative Designer: Jan 2018 - Dec 2018

- Designed UI and graphics for various customers.
- Designed branding and marketing materials for the company, both digital and print.

Code Authority Inc.

Web Design/Developer: Nov 2011 - 2013

- Designed and developed websites for customers, both static and CMS based.

Front-End Designer: 2013 - 2015

- Designed the UI for software and website customers.
- Designed branding and marketing materials for start-up business customers.
- Designed marketing material for Code Authority.
- Designed the branding and even materials for CodeLaunch, the company's app start-up competition held every year.

Lead Creative Designer: 2015 - Dec 2017

- Created the first dedicated design team at Code Authority, continuing to perform all previous duties as well as the following.
- Managed all design projects, assigning and overseeing projects to the Jr. Designer.
- Managed CodeLaunch's stage production and networking event.
